KSA ICT Indicators End of Q3 2016

ضيئة التصارات وتقنية المعلومات Communications and Information Technology Commission

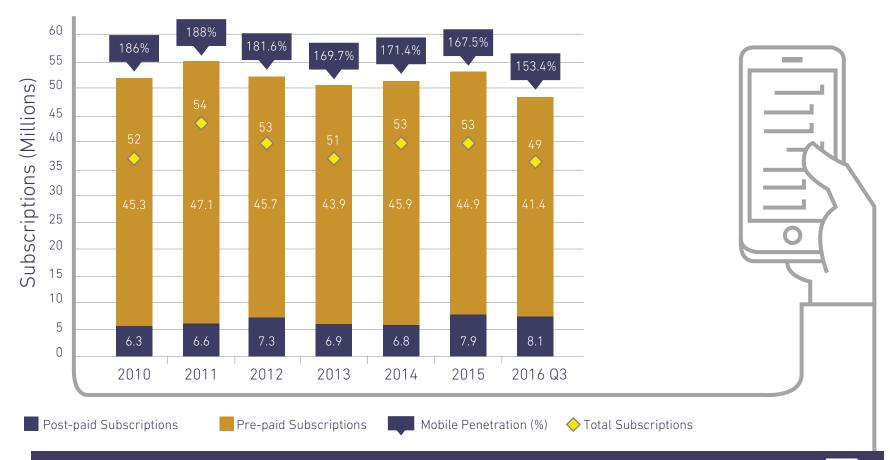

1- Mobile Telecommunications Market

number The total of mobile subscriptions has decreased to 49 million by the end of Q3 2016, with penetration rate of 153.4%. Prepaid subscriptions constitute the majority (over 83%) of all mobile subscriptions. The decrease in subscriptions is expected to continue in the upcoming period result of the fingerprint requirement for all subscriptions.

Mobile Service Market Growth-Total Subscriptions

2 - Fixed Telephony Market

Fixed telephone lines reached 3.5 million by the end of Q3 2016, of which around 1.8 million or 52% were residential lines. This represents a household teledensity around 31.4 %, while the population teledensity is about 11%, it is noted that the number of subscriptions has continued decreasing due to the competition of the mobile services in prices and variety of offerings which make it a substitution of fixed services for some of the Users.
