## Scope

This specification applies to iDEN handsets, base stations and ancillary equipment.

The Integrated Digital Enhanced Network iDEN is a mobile telecommunications technology offering voice communication.

## Enforcement

This specification shall enter into force on 01/06/2021.

Any previous version of this technical specification is withdrawn.

## General Requirements

All equipment must comply with the requirement of CITC specification GEN001, be safe and must not adversely affect other electrical equipment.

All telecommunications and radio terminal equipment must comply with the relevant technical specifications established by CITC. In addition, such equipment may be subject to regulations for Declaration of Conformity or registration. See [www.citc.gov.sa](http://www.citc.gov.sa) for details.

If more than one interface type is offered by a piece of equipment, each interface must meet the applicable technical specifications.

Further information on the characteristics and presentation of network interfaces can be found by visiting operator's website.

It is mandatory that test reports are obtained from a laboratory that has been accredited by a body that is a member of the ILAC Mutual Recognition Arrangement.

## Limits and conditions

Testing should be carried out to ensure compliance with the listed specifications.

Frequency band	Max Output Power or Magnetic Field	Usage	Standard	Comments
806 – 824 MHz	Subject to licensing	iDEN	CFR 47 Part 90 CFR 47 Part 15 B ANSI C63.26	
851 – 869 MHz	Subject to licensing	iDEN	CFR 47 Part 90 CFR 47 Part 15 B ANSI C63.26	

## Licensing Requirements

Spectrum Licensing requirements apply as indicated in the table above.

## Additional Requirements

There is no additional requirements for this technical specification.
