

CITC Technical Specification

Specification for Point to Point and Point to Multipoint Radio Fixed Links

Document Number: RI031
Revision: Issue 03
Date: 02/03/2021

Issued by The Communications and Information Technology Commission of Saudi Arabia in accordance with article 84 of the Telecommunications Bylaw.

Scope

This specification applies to point to point and point to multipoint radio fixed links.

Point to point and point to multipoint links are used to transmit data via radio signals between two, point to point, or more, point to multipoint, fixed installations.

Enforcement

This specification shall enter into force on 01/06/2021.

Any previous version of this technical specification is withdrawn.

General Requirements

All equipment must comply with the requirement of CITC specification GEN001, be safe and must not adversely affect other electrical equipment.

All telecommunications and radio terminal equipment must comply with the relevant technical specifications established by CITC. In addition, such equipment may be subject to regulations for Declaration of Conformity or registration. See www.citc.gov.sa for details.

If more than one interface type is offered by a piece of equipment, each interface must meet the applicable technical specifications.

Further information on the characteristics and presentation of network interfaces can be found by visiting operator's website.

It is mandatory that test reports are obtained from a laboratory that has been accredited by a body that is a member of the ILAC Mutual Recognition Arrangement.

Limits and conditions

Testing should be carried out to ensure compliance with the listed specifications.

Frequency band	Max Output Power or Magnetic Field	Usage	Standard	Comments
Subject to licensing	Subject to licensing	P2P	EN 302 217 EN 301 489-4	
Subject to licensing	Subject to licensing	P2MP	EN 302 326 EN 301 489-4	

Licensing Requirements

A spectrum license is required to use this service.

Additional Requirements

There is no additional requirements for this technical specification.

DRAFT

References

The following referenced documents are indispensable for the application of this document. If no issue or revision number is quoted along with the title of a technical specification or standard, the latest published version should be used.

EN 302 326-2

Fixed Radio Systems – Multipoint Equipment and Antennas - Part 2: Harmonised EN covering the essential requirements of Article 3(2) of the R&TTE directive for Multipoint Radio Equipment.

EN 302 326-3

Fixed Radio Systems – Multipoint equipment and antennas - Part 3: Harmonised EN covering the essential requirements of Article 3(2) of the R&TTE directive for Multipoint Radio Antennas.

EN 302 217-2-2

Fixed Radio Systems; Characteristics and requirements for point-to-point equipment and antennas; Part 2 2: Harmonized EN covering essential requirements of article 3.2 of the R&TTE directive for digital systems operating in frequency bands where frequency co-ordination is applied.

EN 302 217-3

Fixed Radio Systems; Characteristics and requirements for point-to-point equipment and antennas; Part 3: Harmonized EN covering essential requirements of article 3.2 of the R&TTE directive for equipment operating in frequency bands where frequency co-ordination is applied.

EN 302 217-4-2

Fixed Radio Systems – Characteristics and requirements for point-to-point equipment and antennas – Part 4-2: Harmonized EN covering essential requirements of Article 3(2) of R&TTE directive for antennas.

EN 301 489-1

Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements.

EN 301 489-4

Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 4: Specific conditions for fixed radio links and ancillary equipment and services.

History

For reference, the latest versions of the technical specifications are published on the CITC website www.citc.gov.sa.

Description	Status	Date
